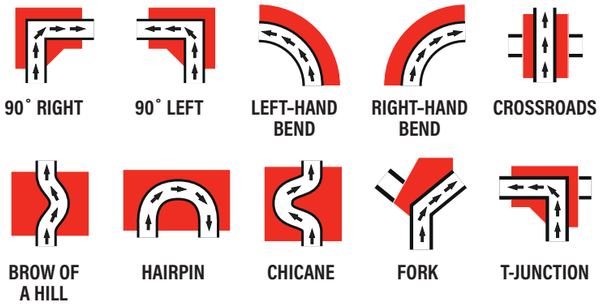
SAFETY 1

STAY SAFE RALLYING CAN BE DANGEROUS, AND SPECTATORS ARE ADVISED THAT THEY WATCH AT THEIR OWN RISK.

The **RED** in these diagrams indicate **PROHIBITED** areas where it could be danggerous to stand, Do not enter these areas as this could cause stages to be delayed or cancelled.



LOOK FOR THE GREEN LIGHT

From 2022 onwards, all cars at the top level of the FIA World Rally Championship feature hybrid electric powertrains.

With this comes new precautions for spectators and safety crews in the event of a crash due to the high-voltage electrical current they can generate.

This is why you must always look for the green light whenever a car is stationary before touching it, as only this means the car is safe.
